
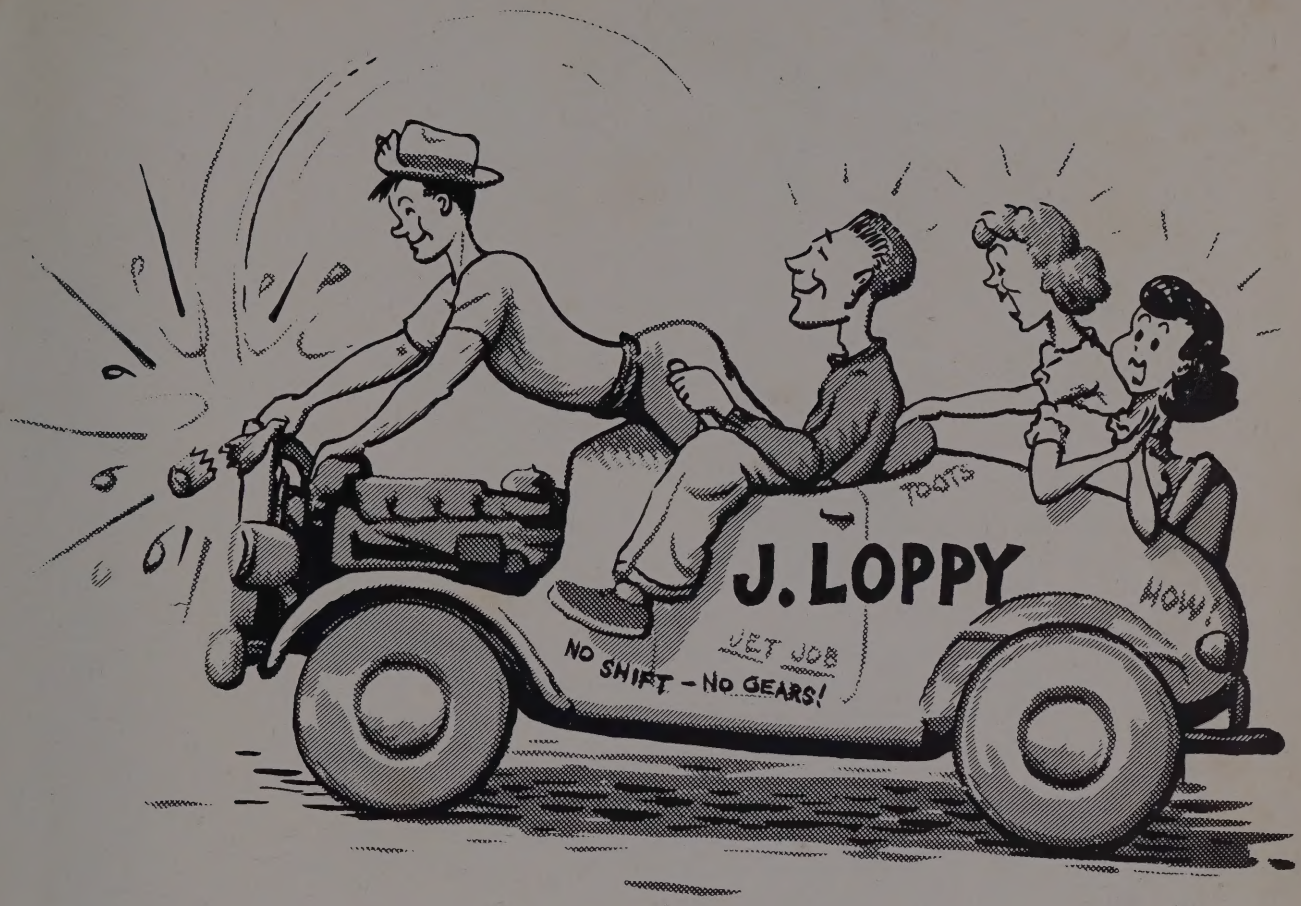
THE REFLECTOR



DEDICATION

We respectfully dedicate this annual, "The Reflector", to our teacher and Senior sponsor, Mr. Byron Shoemaker, in appreciation of the friendship and cooperation that he has shown to all of us this past year.

We shall have wonderful memories of the many good times that Mr. Shoemaker has made possible. In this way, we, the Senior Class, wish to partially thank him for his fine leadership.

Seniors of "54"

We have well-spent the best years of our life,
And now we have reached the point of no-return.
We can meet face to face with the world's din and strife,
Being guided by Tim and teachers concerned.

To return will be our desire at times,
All thirty of us will have to agree.
But it will take greater courage and presence of mind,
To meet the world receptive and free.

Maude Klingaman
Barbara Bender

1954 Class Motto

"With the ropes of the past, we'll ring the bells of the future."

Class Colors - Green and Gold

As new buds of the gladiolus open into flowers when the old buds on the stalk die, so shall our years that lie ahead bloom each successive year as one after another old year fades.

Valedictorian

The dictionary defines "valedictorian" as one who gives a message of farewell. To me, it ought to be as much "hello" as "farewell".

Farewell to the good times and friends of school; hello to the future good times and new friends. Farewell to the only life we have known for 12 years; hello to the unknown experiences of the rest of our lifetime. Farewell to our teachers, who each in his own way have added something to our lives; hello to those from whom we may learn in the years ahead. Farewell to life in its comparative ease and shelter--though we may not have thought so at the time; hello to life on our own.

The "hello" and "farewells" cannot be separated, however. Without our past experiences, we could not be saying "hello" so cheerfully, so eagerly, so optimistically to the future.

To all those who have aided us so much, we wish to extend our heartfelt thanks.

Marilyn Wilson

Salutatorian

Tonight, I have the distinct honor to welcome you to this affair. Although this may be a tribute to the Senior Class of 1954, I would like to honor you--our parents, teachers, and friends--for the splendid leadership and advice you have given us. Without you to encourage us and the former alumni, America would not be the free land of opportunity and free education.

We, the Senior Class of 1954, are about to depart from the school which we know so well. Into all walks of life we shall go, but none will be more enjoyable than our days at Larwill High School.

In conclusion, I wish to thank you, our parents, our teachers and friends, for the guiding light which you have given us--the class of 1954--and to further welcome you to this and forth-coming senior affairs.

Our first class party was held at Alberta's home. The second semester party was held at the schoolhouse.

Ilene was the Riley Basketball Queen. Nancy and Dorothy took part in Group Discussion.

We began the Sophomore year with thirty-five members. Harry moved to Columbia City, Bill S. was out because of illness, and for Bill B., Freeman, Marion, and Dick G., it was work. Barbara Bender moved here from Columbia City, and Doris Hill joined us from Ft. Wayne.

We elected a new vice president, Larry Plummer, to fill the vacancy left by Dick G. Our sponsor was Miss Reba Stemen. Larry B. withdrew at the end of the first semester.

Our first semester party was held at Leoda's home and the second semester party was at David's home.

Barbara was our candidate for Riley Basketball Queen.

Nancy and Dorothy took part in Group Discussion. Marilyn took part in extemporaneous and Oratorial Speaking.

Our Junior year began with thirty-three members. Edgar dropped out to work. Barbara K. and Patty dropped out later in the year to start up housekeeping.

Alberta was our candidate for Riley Basketball Queen.

Dorothy and Nancy were elected varsity cheerleaders.

The Senior year began with thirty-one. David moved to California. Harry J. rejoined the class from Columbia City. During the year Doris and Donna left our class for preference of wedding bells. Our sponsor was Mr. Byron Shoemaker.

Senior Class Prophecy

It's the evening of May 24, 1979, the moon is bright, the night is still, the time is ripe. I, Bill White, and my co-pilots, Harry Jennings and Dick Juillerat are walking across a lonely, deserted runway, used for old-fashioned jet aircraft. In the center stands our huge, powerful space ship, the Comet Dodger. We open the hatch, step in, walk over to our reclining take-off seats; Harry checks the gauges as I find flying conditions. A loud, booming voice over our magna-radio tells us we have ten seconds till take-off. We strap in. Three, two, one, fire!! As the pressure of our powerful take-off rockets pushes us into our seats, our world fades away.

What's this strange picture coming into my mind? I wonder if Harry sees this. Why, it's our graduation day twenty-five years ago. Look at the happy, tear-streaked faces; everyone's there. I wonder what happened to them all--

New era of space travel opened as Everett Schuman; brilliant, young scientist and head of proposed Inter-Planetary Space Travel Agency, announces discovery of new atomic fuel. Shortly after he and mathematician Larry Plummer had calculated and solved the mysteries of space travel. Here's a newspaper article which flashed through my mind.

Alberta Martin, first woman President of the United States, and her hen-pecked husband Norman Reiff are busy making huge signs claiming land in the name of the United States. These signs will be given to all space explorers; the signs are made of peppermint candy so that if no new planets are discovered the explorers won't starve to death. Shortly after spotting the planet Aqua through a powerful telescope, Paul Branning, Dick Kessie, Ivan Werstler, and Kenny Juillerat took off for this fisherman's paradise. The planet is completely covered with water and holds many huge bluegills, bass, etc. These brave men are the only human beings on the planet.

On arriving at Mars, after a record breaking run between the Earth and Mars, Patsy Martz was greeted by Tim Shoemaker who arrived on Mars in 1954 and didn't have time to return.

Not too long ago Nancy Rager landed on Mars and has enjoyed life eating Mars Bars ever since. Her traveling companion, LaVonne Miller, has been taking the wrappers off for her.

Maude Klingaman, renowned wild animal capturer, has just returned from the jungles of Venus with such ferocious animals as Zenophs, Elongeros, and Bolapillers. Maude's nickname is "Bring 'Em Back Alive".

Upon stopping at the Alpha-terminal on Moon for refueling, the passengers were greeted by the husky voice of public address system announcer Bernice Johnson. Among the passengers were Donna Wilkinson-Kelley and Doris Hill-Method who commented to space reporter Ilene Leutz, that they were just sightseeing.

Really not news to anyone, but it was announced that Bill Mathias outer-space bad-boy and casanova has stolen a rocket and eloped with his old favorite Gertrude Buntain. They were married on the Moon by Leoda Sellers, Justice of the Peace.

Bud Weirick has been crowned champion of interplanetary Olympic games held this year at Mercury. He broad jumped 126' for a new record and is now recovering in the hospital.

It looks like destiny still plays a big part in romance as Kenny Rubrake famous lover of outer-space girls married Marlene Bohnstedt, who has to club the boys away from her. They met at a dance on Saturn put on by interplanetary hostess Marilyn Wilson. I, also heard that Dorothy Stephens was still wandering around in space after not being able to draw a certain mathematicians mind away from his problems.

Corrine Clark and Fannie Mullenax are now entertaining passengers on space ships with their up-to-date versions of opera and classical songs.

Barbara Bender and Carolyn Boggs are headed toward a planet named Hawaii. Barbara on business; Carolyn just for the ride.

And now as I am reviving, the picture fades away and I know that we will be the first humans that reach Pluto.

Class Song

(Tune--Onward Larwill)

We, the class of "54",
Will not forget our school.
Parents, Teachers all alike
Have taught the golden rule.

Graduating is our goal,
But higher we must climb;
For to make U.S. great,
We must be sublime.
